

After the Holidays, support PHS
ROBOTICS and the PUSD school of
your choice by Dropping off your
Electronic Waste and Paper!

E-Waste Recycling / Paper Shredding

Saturday, January 4th, 2014
9:00 AM – 2:00 PM
Poway High School
North Parking Lot

The Poway High School Robotics team is holding an **Electronic Waste Recycling Fundraiser** on **Saturday, January 4th, 2014 from 9:00 a.m.–2:00 p.m. at Poway High School, 15500 Espola Road** (Parking Lot north of football field). This event is sponsored by the Poway High School Robotics Team and IMS Recycling. Please see the list of acceptable items to the right.

All PUSD schools have the opportunity to raise money by participating in this event. IMS recycling is donating all of the collection proceeds back to the schools. When individuals drop off items for recycling, they will be asked which school they are supporting. Identify your school and receive a percentage of the total revenue received based upon school participation. The Poway Adult School or PUSD Foundation can also be named.

Throughout the years we have, collecting over 100,000 lbs. of electronic waste and generating over \$10,000. Let's make this event even more successful by letting staff, parents, family and community members know of the January 4th fundraiser. Start gathering your E-waste now. Offer to take your friends' and neighbors' E-waste for them as well! Please help spread the word!

Acceptable Items

Computer Parts and Accessories:

- Desktop, tower or server cases (empty or not)
- Motherboards, loose cards and CPUs, RAM sticks, fans, power supplies, and heat sinks
- Peripherals such as; monitors, keyboards, mice, scanners, and printers

Also don't forget:

PTA Shredding Event

The PTA has arranged for a shredding truck to be in the parking lot at the same time as our E-Waste event.

For only \$5.00/box, you can have all your private documents shredded in a safe and secure manner. You do not need to remove staples. This is an awesome way to clean out your office/garage/desk, etc.

Sponsored by IMS Electronics,
PHS Robotics, Team Spyder 1622, and Poway High PTA
